

“Camp Blue Haven 2018”

Favorite Things:

1. Singing in our cabin
2. Players night videos
3. Bible class
4. Getting closer with our youth group members
5. Opening up to other Christians about struggles.

Bible class taught us how to be thankful for what we have and how to encourage other Christians. Player's night was cool because the kids had so many bad things happen to them and they still found Jesus or stuck to Jesus in times of trials and it was so encouraging to see. We always think we have it so bad but there is always someone worse off. After early Christian worship, just the boys went back to our cabin and sang. It gave me chills and made me so happy and it was just a cool moment.

My counselor was Landon, my neighboring counselor was Zane, and I got chances to talk to both of them. I think God and the Holy Spirit put things together for me and made things happen for me to get a chance to listen to their struggles, which was ironically the same struggles I was having and even have to this day. – Drake Holifield

This year at camp, my brother and sister cabin grew as a family. We had the best teachers, Brett and Christa Bronniman. They got to know us and treated us like a big family.

Kyle our counselor really listened to us and he said that we teach him just as much as he teaches us.

Our hike was very intense. We climbed up an insanely steep mountain and it brought our cabin as well as Joey who hiked with us so close in a tight knit community. – Ben Rackely
