

The Clinic

Through Baxter's newly renovated clinic, 10,000 patients per year are able to see the doctor, pediatrician, or dentist and receive their medications for just \$2. Our doctors also help visiting groups set up medical brigades throughout the surrounding area.

Baxter also joins with VCOM medical schools in the States for large medical brigades. VCOM medical students come to campus for one-month rotations to work in Baxter's clinic and in two Honduran national hospitals.

The clinic also manages a nutrition program for malnourished children in the community. The program gives food staples every 10 days, health care in the clinic, and training in sewing or cosmetology for the mothers. Our hope is to offer the mothers a trade that they can use to support their children after their year in the nutrition program. Supporting a child in the nutrition program costs just \$45 a month.

¡Gracias!

We are so appreciative of your support! Your investments of time, money, and prayer are invaluable. We could not continue the work we do to spread the Gospel in Latin America without you. Thank you for your kindness and heart to serve the people of Latin America!
